

# RAINETTE®

LE S AN G L A G E M A G N É T I Q U E

PATENTED INNOVATION AND MADE IN FRANCE 

## THE MAGNET TO HELP THE **STOWAGE**

The **RAINETTE®** is a safety system to help and ease the handling of strap and the securing of goods on flatbed truck.

This tool is equipped with 2 powerful magnets in order to obtain a strong magnetic adhesion to the truck bed and to avoid unhooking the end of the strap when tensioning.

The **RAINETTE®** has a pvc body and adapts to different thicknesses of straps.

DEMO  
VIDEO

## **STOWAGE SUCCESSFUL THE FIRST TIME**

The **RAINETTE®** is an innovation born from a simple observation: the often unhooking of the strap hooks encountered by carriers when tensioning by pawl action.

This magnetic tool allows to achieve the **securing action on the first try** and so **saving time** on loading operations.

## **EASY AND SAFE USE**

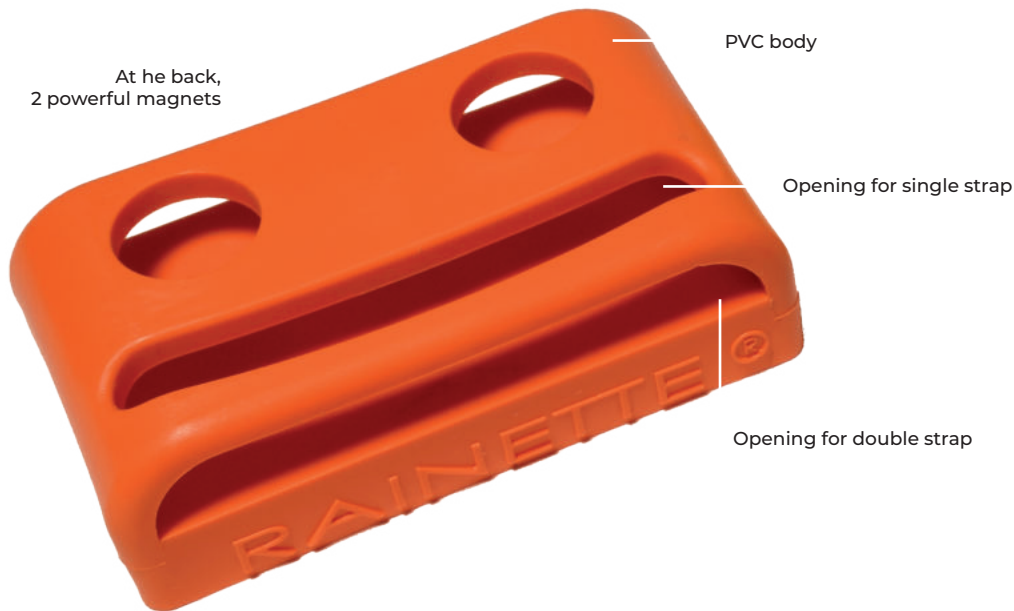

The purpose of the **RAINETTE®** is to achieve a perfect tie up every time and to **improve the working conditions of the operator** :

- End back and forths for adjustment
- Avoid unsafe bad practices
- Reduce the risk of accidents at work and musculoskeletal disorders.
- Save time and improve efficiency

 **AN AWARD-WINNING  
TOOL**

# A SMALL TOOL FOR A GREAT EFFICIENCY

The RAINETTE® remains on the strap for future uses

## RAINETTE® FEATURES

- ✓ Adhesion force : 7 kg
- ✓ Dimensions : 70 x 40 mm
- ✓ Thickness : 22 mm
- ✓ Weight : 65 gr

**Quick and easy**  
Only 1 person required for stowage operation

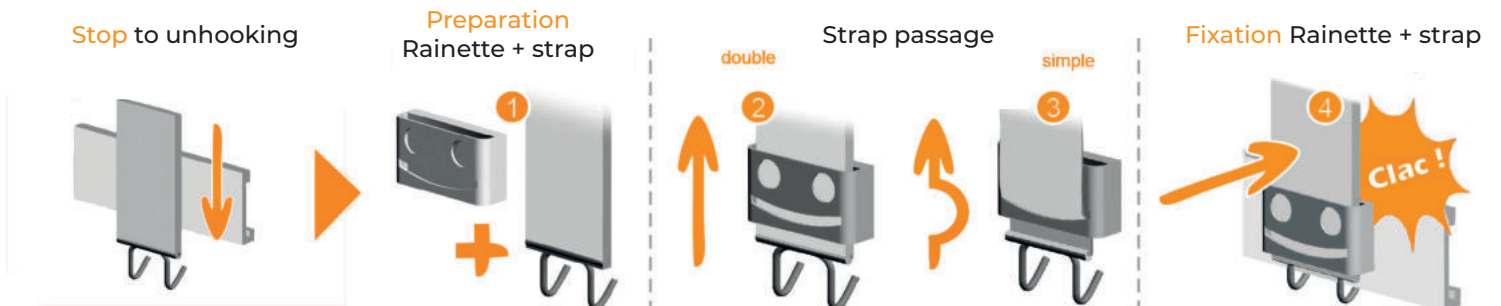

**Efficiency**  
Save time and energy

**Safety**  
Avoid the risk of falls

CAN BE USED WITH DIFFERENT SIZES OF STRAP
